OFFICE OF THE PRINCIPAL

August 2020

Dear Parents or Guardians:

As we begin a new school year, I would like to welcome everyone back for the 2020-2021 school year. We are also welcoming some new students to our St. Mary School Family.

The new school year will have some changes to procedures and protocols as we implement all of the guidelines from the CDC and the Department of Health. Enclosed you will find many important documents that must be reviewed by you and your child(ren).

The first three documents pertain to the important technology that we will be utilizing this year: **Student Technology Use and Behavior Policy:** This document details the students' responsibility of using and handling all of the devices used this year.

**Student Device Acknowledgement:** This form will describe the device that your child will be using along with its corresponding serial number. This form should be completed and signed leaving the field 'serial number' blank for the classroom teacher to fill in. Both this form and the Use and Behavior Policy must be read and signed by *each* child attending St. Mary School. This

**Device Request Form:** This third form is to be filled out one per family and communicates the number of devices needed in the event of mandated remote learning. We do ask that you only request the number of devices that would be absolutely necessary to conduct remote learning. Please send this in with your eldest child during the first week of school.

**COVID-19 Social Responsibility Pledge:** In compliance with the new guidelines we ask that all parents and students complete this formal pledge stating that all are aware of the new responsibilities of our community. This document must be returned to school, one for every child.

**Mask Guide:** This document, created by Perrotta Consulting LLC, provides general mask information and will help inform you and your children of appropriate mask usage and wear.

**E-Rate Household Survey:** We ask that all households complete this survey as it helps the school receive necessary funds for our programs. Please return only one survey to school with your eldest child. Each child received a copy of this form but only one per household is necessary for submittal.

**Information for the School Year:** This document contains additional information about the school calendar, hours and transportation procedures.

**Handbook Acknowledgement Form:** All students must complete and return this form by Friday, September 18<sup>th</sup>, 2020. This form acknowledges that each student has read and understands the rules and regulations of the 2020-2021 school year.

**Promotion Card (returning students in grades 1-8 only):** Enclosed in this mailing you will find the promotion card that contains your child's homeroom assignment for the 2020-2021 school year. Please have your child bring this to school on September 8<sup>th</sup>.

On September 8<sup>th</sup> your child (students in grades 1-8) will arrive at school and proceed to the assigned entrance for their grade level. Members of our faculty and staff will be positioned outside

to ensure that all students know their appropriate door of entry and how to get to their new homeroom. Before entering your child will have their temperature checked and will proceed to their class upon passing the temperature check. If a student has a fever of 100° F or above he/she will be brought to the isolation room for further evaluation by the school nurse as outlined in our reopening plan.

All families, as per the DOH guidelines, must complete a weekly Health Screening Survey for *each* child in their household. This form is due *every* Monday and must be completed for *every* child in the household. We have enclosed enough forms for each child for the three remaining Mondays in September. Forms are due 9/14, 9/21 and 9/28 and should be completed on Sunday evenings. These forms must be handed in at the time of entry into the building on Monday morning as the student receives their temperature check. Any student who does not have their weekly Health Screening Survey will not be allowed to go to their classroom. If your student does not have their Health Screening Survey the parent/guardian will be called and asked to scan/fax the form to the school nurse or the student will have to be picked up. This form can be downloaded from the school website on the Nurse Forms page in the event that you misplace your forms. This procedure is necessary in order to ensure the protection of all students, faculty and staff. We also ask that you also check you child's temperature before they leave for school each day. If your child has a temperature of 100° Fahrenheit or above they must stay home from school.

“Meet the Teacher Night” this year will be on Thursday, September 24, 2020 and will be conducted virtually. Further information will come home with your child in September.

I look forward to another wonderful school year with our St. Mary School Family!

Enjoy the rest of your summer!

Sincerely,

A handwritten signature in cursive script that reads "Laura A. McMahon".

## Student Technology Use and Behavior Policy

St. Mary School (the "school") has established a technology network with access to the Internet for its students. This network has been established for limited educational purposes only. By agreeing to this policy the student(s) and the parents and/or guardians of the student(s) fully agree to the following:

There is **NO RIGHT TO PRIVACY** when using the school's technology resources. Administration, faculty, and other authorized persons have the right to review any and all material saved, transmitted, accessed, or momentarily in use by the student in accord with the policy set by the school's administration.

There is **NO ABSOLUTE RIGHT TO FREEDOM OF SPEECH** when using the school's technology resources, which is viewed by the administration as a limited educational forum; and student behavior is expected to conform to values consistent with the Catholic faith both inside and outside the school setting.

All access to the school's technology resources will be permitted only under the authorization of a member of the school staff.

The student agrees that all information transmitted through the use of the school's technology resources (including e-mail, G-Suite (Google) apps, web page publication, or other Internet postings) will be sent, received, or posted only under the authorization of a member of the school's staff with the explicit permission of that staff member.

The student agrees to stop using any and all of the school's technology resources whenever requested to do so by a member of staff or other authorized person.

The student agrees never to access, transmit, or retransmit any information containing sexually oriented material, which means any pictures or writings that are intended to stimulate erotic feelings by the description or portrayal of sexual activity or nude human form.

The student agrees never to use the school's technology resources for commercial purposes. The student will never buy nor sell anything using the school's technology resources.

The school's system will never be used for political lobbying, although it may be used to communicate with elected representatives to express opinions on political issues.

The student agrees never to tamper with any software and/or hardware including software or hardware that guard the school's network from unmanaged Internet use. The student agrees never to tamper with any security system that protects the school's technology resources.

The student agrees to use only the software and/or hardware permitted by a member of staff for express educational purposes. The student agrees never to use the school's technology resources to gain unauthorized access to another technology network (hacking).

The student agrees never to transmit (download or upload) any computer file, application, or other computer resource to or from the school's technology network. This includes the unauthorized installation of software from a CD-ROM, flash drive, or other media.

The student agrees never to use inappropriate, obscene, profane, rude, inflammatory, threatening, or disrespectful language. The student agrees never to post false information or engage in personal, prejudicial, or discriminatory attacks. Student behavior is expected to conform to values consistent with the Catholic faith.

The student agrees never to harass another person by use of any technology resources. Harassment is defined as any action that distresses or annoys another person. The student agrees to stop immediately any and all behavior that is construed by another as unwelcome.

The student agrees never to use any of the school's technology resources to plagiarize. Plagiarism is defined as taking the idea or writing of others and presenting them as one's own.

The student agrees to respect the right of intellectual property of other people and to respect all copyright laws. The student agrees that if he or she is unsure whether copyright law is being respected, he or she will bring this question immediately to the attention of a staff member.

The student agrees never to participate in illegal activity using the technology resources. The school will cooperate fully with local, state, or federal officials in any investigation related to any illegal activities conducted through the school's resources.

The school will not be held responsible for the actions of a student who is in violation of any of the terms of this policy. This responsibility is extended to, but not limited to: loss of data or interruptions of service, the accuracy or quality of information obtained through the school's system, or any financial obligations arising through the unauthorized use of the school's technology resources.

The school reserves the right to establish rules and regulations regarding the use of the school's technology resources, and behavior is expected to conform to values consistent with the Catholic faith both inside and outside the school setting.

A student found in violation of this policy will be subject to discipline including, but not limited to, temporary removal from the school's system, permanent removal from the system, or other appropriate disciplinary action in accord with the rules and regulations of the school, including suspension or expulsion, and /or legal action.

## Student Device Acknowledgement

Name of Student: \_\_\_\_\_ Grade: \_\_\_\_\_

This is to acknowledge I have received a Chromebook, serial number \_\_\_\_\_ from Saint Mary School-East Islip.

If a person violates any of the terms and conditions named in the policy, the privilege of being loaned this device may be terminated, access to the school technology resources may be denied, and the appropriate disciplinary action shall be applied, in accordance with the student handbook.

I acknowledge the device must be returned to St. Mary School by June 10th in the condition in which it was received. ## COVID-19 Mask Guide

Masks are recommended to help prevent respiratory droplets from traveling into the air and possibly infecting other individuals. When a mask is properly worn, around both the nose and mouth, it reduces the spray of droplets and protects:

- Other people if the person wearing the mask is carrying the virus.
- The person wearing the mask from other individuals around them.
- The person wearing the mask from themselves since the mask will protect your face when touching your face with contaminated hands.

Duke University evaluated the efficacy of 14 different masks by comparing the most commonly used mask types. In order of effectiveness, the top three masks were:

- A fitted N95 mask
- A three-layer surgical mask
- Cotton-polypropylene face masks

The following masks should **not** be used as they were the least effective, and nearly useless, due to the high number of respiratory droplets passing through the material:

- Folded bandanas
- Knitted masks
- Neck fleeces (gaiter masks)

Surgical masks have different ratings based off ASTM standards. Many masks look like surgical masks but in order for the mask to be effective against COVID-19 the mask should have an ASTM rating of a level 1, 2, or 3.

- If the mask does not have an ASTM rating, the virus can still travel through the mask because the particle size of the virus is smaller than what the mask protects against.

Though fitted N95 masks and three-layer surgical masks are the most effective, these masks are often reserved for healthcare workers. If using cotton or cloth face masks, the following guidelines should be adhered to for the mask to be effective.

- Fit over the nose, mouth, **and** side of the face tightly, but comfortably.
  - There should be no gaps on the side of the mask.
  - Masks with a pliable metal that can bend around the bridge of the nose can help create a tighter fit and ensure the mask stays over the nose.
- Be secured with ties or ear loops.
- Include **multiple layers** of a high thread count and water-resistant fabric.
  - Low thread counts and single layered fabrics without filters do not protect against the virus as well.
    - 100% cotton masks with a high thread count result in better filtration.
    - Masks should also have a filter, such as polypropylene.
- Be washed daily with soap and water.

- If students are not washing their masks daily the effectiveness of the mask is significantly reduced.
- Not be used if they are wet.

Because masks with one-way valves or vents allow air and droplets to be expelled, the CDC **does not** recommend the use of masks if they have an exhalation valve or vent. These masks only protect the person wearing the mask because the virus can still travel out of the valve and possibly infect other individuals.

The CDC also **does not** recommend the use of face shields as a substitute for masks; they can be used as an additional layer of protection with a mask or independently so long as 6 feet of distance is adhered to.
